PRESS COMMUNIQUE.

Fort St. George, May 9, 1938.

[Correspondence—Forms of address—Honorifics—Use of "Sri," etc.—Orders issued.]

No. 33.—

The Government consider that the rules laying down a variety of rather clumsy forms of address for Hindus, such as M.R.Ry. . . . . Avargal, or Garu etc., are now out of date and that it would be much better to use the simple honorific "Sri" instead. The Government therefore direct that in all official correspondence the honorific "Sri" shall be used in the case of Hindus.

NOTIFICATION.

Fort St. George, May 7, 1938.

[*G.O. Ms. No. 793, Public (Political)*].

No. 34.—

The practice of using the title "Sir" by a person who has not yet been dubbed or has not yet received Letters Patent conferring a Knighthood is irregular. His Excellency the Viceroy has accordingly ordered that the title "Sir" should not in future be used

in official documents such as the *Fort St. George Gazette*, etc., unless the person concerned has been dubbed or has received the Letters Patent conferring the Knighthood. In the case of a person designated a Knight-Bachelor it will not be possible to indicate this by the use of the Letters "Kt." after his name, but in the case of the Orders a person who, not already being a Knight-Bachelor, has been designated, e.g., K.C.I.E., would correctly be referred to as "Mr. X Y Z, K.C.I.E."

PRESS COMMUNIQUÉS.

Fort St. George, May 3, 1938.

No. 476.—

It has been argued in certain quarters that the Madras Prohibition Act must fail to be effective by reason of the fact that tapping for sweet toddy is permitted under the Act. It is argued that sweet toddy ferments in a few hours and that it is therefore impossible to prevent the production of fermented toddy under the guise of tapping for sweet toddy. This argument is based on an erroneous premises. Under the Sweet Toddy Rules issued by the Government, sweet toddy can be tapped in prohibition areas only under a licence and the drawing is permitted only in pots or other receptacles effectively coated internally with lime. Such coating has to be renewed every time the pots are emptied and reattached to the trees. Such coating effectively prevents fermentation. The rules further require that sweet toddy so drawn must at once be manufactured into jaggery or used as a beverage and that no such toddy should be kept by the tapper for longer than the day on which it is drawn. By means of the system of licences and thorough supervision exercised by the authorities, the tapping and disposal of sweet toddy is kept under very strict control. The Collector's latest report on the working of the Prohibition scheme in the Salem district shows that the control exercised over sweet toddy tapping has been most satisfactory and that it can safely be said that there is no danger of any widespread abuse of the sweet toddy licences. The following are extracts taken from the report :—

> " Forty cases were detected in the month (March) against 16 in February. Twenty-nine of these cases, however, were for tapping without licences and only 11 for tapping fermented toddy or converting sweet juice into toddy by adding bark, straw, etc. In view of the fact that 8,184 licences for sweet juice tapping have been issued covering 383,222 trees, the number of cases cannot be considered to be unduly large. I mentioned in my last two reports the action that has been taken to control sweet juice tapping and it appears that the control is generally effective. The police examined as many as 20,651 trees, which was nearly double the figures for February. The difficulty of controlling sweet juice tapping has proved less than was anticipated.
>
> * * * * *
>
> Generally speaking, the position in the district remains the same. The most satisfactory feature is the effective control exercised over sweet juice tapping. It can now be safely said that there is no danger of any widespread abuse of sweet toddy licences during the present tapping season.
>
> * * * * *
>
> What appeared to be the most difficult problem, viz., control of toddy tapping seems to have been solved."

It has also been suggested that the prohibition introduced by the Madras Act is merely nominal in that it allows the issue of personal permits for the consumption of foreign liquor and also authorizes licences to clubs to possess foreign liquor and to issue it to such of its members as possess personal permits. The suggestion is a gross exaggeration. Personal permits cannot be claimed as a matter of right. They are granted to a limited number of persons of well known status who by habit are accustomed to the use of foreign liquor and cover the possession of only a small specified quantity of such liquor at any one time. As against a population of 2,433,972 the total number of such permits issued up to the end of March 1938 in the whole of Salem district is only 77. The number of licences issued to clubs in the district for the same period is only two.

There is thus no reason to suppose that prohibition has not been effective because it allows issue of sweet toddy licences, personal permits to a relatively insignificant number of persons and licences to a few clubs.

2. The calves supplied should be according to the description noted in the schedule hereto and should be brought from Salem and Coimbatore districts and taken by the quickest possible train.

3. On no account will the deposit of previous contract be taken as an authority to permit a tenderer or bidder to submit his tender or bid without depositing earnest money.

4. No claim for any revision or modification of the contract rates will be considered either on account of any enhancement of the customs duty or on any other ground whatsoever.

5. The number and quantity entered in the schedule is the probable number or quantity which the Director requires to be supplied and may be more or less according to actual requirements. The Director does not bind himself to receive the full quantity or number noted in the schedule but the successful bidder or tenderer will have to supply such large number or increased quantity as the Director may require him to supply.

6. Successful tenderers or bidders will be required to enter into a stamped agreement with the Director of the King Institute within seven days of the receipt of intimation by them that their rates have been accepted by depositing a security of 10 per cent of the total value of the supplies undertaken. Failing compliance within the time specified, the earnest money may be confiscated and in the event of withdrawal their will also be liable to pay any difference between the prices accepted and those ultimately obtained by the Institute. The earnest money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned at the close of the auction.

7. The Director reserves the right to accept or reject any bid or tender without assigning any reason for so doing. The lowest bids will not also be accepted if the bidders are subsequently found to have no status and business capacity to run the contract.

8. Contracts should not be sublet without the special sanction of the Surgeon-General

9. Any rates accepted and contracts entered into will be subject to confirmation by Government whose decision shall also be final in all questions of infringement.

10. No article is to be supplied to the Institute except on a requisition signed by the Director or some responsible person or persons authorized by him in writing to do so.

11. No advance of cash will on any account be made to the contractors when giving orders nor will the Institute pay freight or other charges on consignments to be afterwards deducted from bills.

12. Payment will be made on monthly bills, fractions of a rupee in the totals of contractor's bills shall be rounded off to the nearest rupee (i.e. fractions of less than half a rupee are disregarded and half a rupee and over are taken as a rupee) The total of bills for less than Rs. 25 shall be rounded off to the nearest anna (i.e., amounts below six pies are disregarded and six pies and above are taken as an anna).

13. In addition to any difference in prices that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect or refusal on their part to supply according to the terms of the agreement, a fine not exceeding 10 per cent of the deposit money will be levied at the discretion of the Director, for each and every such case of default. For repeated infringement of the stipulations of the contract, the contract may also be annulled with the sanction of the Government, all losses sustainable by the Institute in consequence of the annulment being recovered from the security deposited by the contractors or other money due to them; and in the case of any residue, by legal measures if necessary

14. When once the rates offered at an auction or by tender have been accepted, lower quotations from others either to the Director of the Institute or to higher authorities will not be considered.

15. The calves hired out will be released after the vaccine operations thereon have been carried out and when no longer required. In the event of any casualty occurring among the accepted calves during the period of detention at the Institute, the Institute will indemnify the contractor at the rate of Rs. 2 per calf.

16. The respective contractors should remove the dead calves within twenty-four hours after they are released. Calves not so removed will be disposed of by private sale or otherwise and the amount thus realized, less departmental expenses incurred, will be paid to the contractors.
